COMING CONFLICT.

The Japanese Warships Are Hovering in the Immediate Vicinity of Port Arthur.

TROOPS WILL LAND AT PITSEWO.

Transports Loaded With Jap Soldiers Are Lying at That Point, Northeast of Port Arthur.

It Is Probably the Intention of Adm. Togo and Gen. Kuroki to Lay Siege to the Russian Stronghold.

St. Petersburg, May 6.—With Vice Adm. Togo hovering in the immediate vicinity of Port Arthur and transports loaded with troops lying at Pitsewo, northeast of that stronghold, Russia has braced herself for impending conflicts with the foe in which she will again play a defensive role, this time, it is hoped, with better success and, therefore, with less sacrifice of life than in the engagements on the Yalu. The war commission sat until 2 o'clock Friday morning and at the close of the session it was announced that there was nothing to communicate to the public. It is known, however, that the emperor has been informed of the presence of a Japanese fleet off the Liao Shan promontory and the appearance of transports at Pitsewo.

The fact that the two events occurred simultaneously may have significance. If a landing should take place at Pitsewo, it is anticipated that Togo's squadron will bombard Port Arthur in order to prevent the garrison from sending reinforcements by railroad to the troops opposing the Japanese there. Neither the admiralty nor the war office believes that a disembarkation of the Japanese can be prevented, as the guns of the Japanese cruisers could command the point of landing, but after the Japanese are ashore then the Russians will strike, and, officers here say, will strike hard. What force they will be able to bring up to resist the invaders can not be stated definitely, the strength of the army on the Peninsula of Liao Tung having been kept a strict secret.

It is expected that the railroad will play an important part in the effort of the Russians to push the Japanese into the sea, as it will permit the rapid transportation of troops.

The general staff has not forgotten that Japanese ships were sighted May 3 off Kaiping and Sinichuen, on the west coast of the Liao Tung peninsula, but these two points could be readily covered, if necessary, from New Chwang.

An important advantage would accrue to the Japanese should they succeed in establishing themselves at Pitsewo. From there radiate roads connecting with the railroad at Yang Ti Tien, directly west to south, with Sanchelipon and Kinchow stations on the railroad nearer Port Arthur, north with Kaiping and northeast through Takushan with Feng Wang Cheng.

A landing at this moment would make it difficult for Gen. Kuropatkin to concentrate a formidable force against Gen. Kuroki, whose forward movement is not yet reported. Furthermore, once the Japanese are across the railroad Port Arthur will be as good as besieged.

A member of the general staff says that Gen. Kuropatkin is well aware of these considerations. Even if the Japanese should succeed in cutting the railroad, Port Arthur is now ready to depend on its own resources.

FRAUDS DISCOVERED.

Investigating Entries of Hay and Other Goods.

Ogdensburg, N. Y., May 6.—Special treasury agents who have been investigating entries of hay and other goods paying a specific duty brought in at points along the northern border have found 2,000 cars short on duty, amounting to \$8,000. The fraud was perpetrated by entering the hay at less than its actual weight. Hay, dutiable at \$4 per ton, was entered as straw, paying \$1.50 duty. Straw was put in the car doors to deceive the officers. Importations of shingles and lathes are now under investigation.

Mason Work Shut Down.

Chicago, May 6.—Mason work was shut down in many partly completed buildings throughout the city by the lockout of lime, stone and cement teamsters. It is estimated by employers and union officials that 15,000 to 20,000 men are out of work.

Hungarian Novelist Dead.

Buda Pest, May 6.—Maurus Jokai, the Hungarian novelist who was recently reported to be seriously ill, died Thursday evening from inflammation of the lungs. He was 79 years of age.

THE CLARK HANDICAP.

It Was Easily Won By C. E. Rowe's Colonial Girl.

Louisville, Ky., May 6.—Colonial Girl, C. E. Rowe's 5-year-old bay mare by Meddler—Springtide, showed herself to be one of the best of her sex in the west Thursday by easily winning the Clark handicap from one of the best fields that ever faced a starter at Churchill Downs. This event drew one of the biggest crowds of the meeting. Proofreader and Phil Finch, belonging to Jim Williams, made the early pace, but Lyne rated Colonial Girl perfectly and made his ride as they turned into the stretch and the mare came on and beat Monsieur Beaucare by two lengths. The latter was a length in front of Reservation. The Rowe entry was favorite at 6 to 5. Colonial Girl and Bell the Cate were the only favorites to win.

It is said that C. E. Rowe won \$8,000 in the out-of-town poolrooms on the victory of Colonial Girl.

SATISFIED WITH LIFE TERM.

Curtis Jett's Attorney Moves to Dismiss His Appeal.

Frankfort, Ky., May 6.—In the court of appeals Thursday, when the case of Jett and White versus the Commonwealth was called, Judge Hazelrigg, attorney for Curtis Jett, dismissed the appeal as to Jett, and the appeal of White was argued by A. F. Byrd for the state and J. H. Hazelrigg for White. Jett and White were tried together and both given life sentences for the assassination of James B. Marcum. Later Curt Jett was tried and given a death sentence for the murder of young Cockrell. The appeal from the death sentence will be argued Friday. This move means that Jett is willing to take the life sentence and risk getting a new trial for the murder of Cockrell.

STOLE A MARCH.

The Independents Buy a Big Tobacco Warehouse in Louisville.

Louisville, Ky., May 6.—Another independent tobacco warehouse is to be established in Louisville. The company acquires the largest warehouse in the city, on Main street, between Ninth and Tenth. The house has been under lease to the Louisville Tobacco Warehouse Co., generally known as the combine. The new company will file articles of incorporation in a few days. The members of the company have been buying on the breaks for a long time, and are said to be especially interested in foreign business. The price paid for the warehouse is about \$30,000. It has been under lease to the trust, which would probably have purchased it, but the new company stole a march.

Belong to Commonwealth Attorney.

Frankfort, Ky., May 6.—The court of appeals decided that the per cent. fines paid a commonwealth's attorney must be credited on his salary for the year in which the fines are actually paid into the state treasury and not for the year in which the fines may be assessed by the judge or jury.

A Strange Fever.

Sergeant, Ky., May 6.—Sallie Johnson, 17, daughter of Tandy Johnson, who died Monday night of a strange fever on Long Fork creek, succumbed to the same disease. There are three other cases under treatment, and great excitement prevails. Miss Johnson is the third victim of the malady.

Forced to Assign.

Williamstown, Ky., May 6.—D. C. Points, of this city, has made an assignment to Jim Needham for the benefit of his creditors. His assets are \$6,000 and his liabilities \$7,000. Depreciation of bank stock and the payment of securities made serious inroads upon his fortune.

Miss Beasley Contests.

Williamstown, Ky., May 6.—Miss Anna R. Beasley is contesting the nomination of C. C. Adams for superintendent of schools of Grant county before the county democratic executive committee. Mr. Adams' majority was three votes. A decision is expected next Monday.

Regained His Eyesight.

Mayking, Ky., May 6.—John Scott, 40, who has been totally blind for 20 years, suddenly received his sight Wednesday at Burns, east of here. When it was announced to Scott that a neighbor's house was on fire he became greatly excited and his eyesight returned.

In the feudal or European systems, no man may do anything unless he is permitted. In the democratic or American system, he may do anything unless he is forbidden.

When you intrust government to everybody, everybody makes his suggestion. The man who knows where the shoe pinches makes the last and instructs the workmen.

THE CANAL ZONE.

Rules and Regulations For Its Government Agreed on by the Administration.

COURTS AND POLICE REGULATIONS

Gen. Davis Will Be "Administrator" of the Strip Until Instructions Are Put Into Effect.

No Troops Will Be Dispatched to the Isthmus But Marines Now There Will Be Retained For Preservation of Peace.

Washington, May 6.—An important conference was held at the white house Thursday night at which the general policy to be followed by the administration in the framing of rules and regulations for the Panama canal zone was agreed on. This policy provides for instructions to be issued by the president through the secretary of war to the canal commission for the administration of affairs in the strip, following very much the practice in vogue in the Philippines, where the acts of the commission are subject to the approval of the secretary of war.

There were present at the conference Secretary Taft, Attorney General Knox and Chairman Walker, and the other members of the canal commission now in the city. The members of the commission explained to the president the condition of affairs on the isthmus as they found them and made recommendations for the government of the strip. They will embody these recommendations in a written communication to the president, who will submit them to Secretary Taft and Attorney General Knox for such modifications and suggestions as they deem best. After the rules and regulations have been finally drafted and approved by the president, the latter will issue them to the commission through the secretary of war. Congress left the matter of the government of the strip entirely with the president and the instructions for its government will cover every detail necessary for a complete and thorough administration of affairs there, including the establishment of courts and police regulations. It is expected that the instructions will follow the same general lines as those laid down for the Philippines, but with such modifications as the varying conditions may require. Meantime Gen. Davis, who is to sail from New York next Tuesday, will be "administrator" of the canal strip until the new instructions are put into effect.

It was stated Thursday night that there was no intention on the part of the administration to dispatch troops to the isthmus. The marines now there will be retained for the preservation of peace and order and will be replaced from time to time as the health of the men makes this advisable.

DR. HEARRAN WILL RETURN.

Friendly Relations Between United States and Colombia Resumed.

Washington, May 6.—Through Mr. Andrews, the Colombian consul general in New York, the state department has learned that Dr. Herran, the Colombian charge who formally withdrew from Washington about two months ago, will soon return to this city in the same capacity, indicating a complete restoration of friendly relations between the United States and Colombia.

MALADY AMONG HORSES.

The Department of Agriculture Is Investigating the Disease.

Washington, May 6.—The investigation by the department of agriculture of the horse malady has broken out in Iowa, has shown that the disease was brought to this country by horses imported from France. The malady, known as the coit, is parasitical. The department is considering the question of shutting out importations of horses from France.

Demolished By a Tornado.

Cherokee, Ia., May 6.—A tornado which passed through this county Thursday destroyed several houses and barns in the vicinity of Meriden. The buildings were totally demolished, but no lives were lost.

The Business Portion Destroyed.

Paris, Tex., May 6.—The business portion of Deport, 20 miles southeast of Paris, near the line of Red River county, was destroyed by fire Thursday. Eighteen buildings burned. Loss about \$50,000.

Dayton, Ky., May 6.—Anthony Aschenbach, of this city, who works in a printing office, has perfected a machine which folds, wraps, pastes and addresses newspapers and magazines.

THE SOCIALIST CONVENTION.

Eugene V. Debs Nominated as Candidate For President.

Chicago, May 6.—Eugene V. Debs was Thursday afternoon nominated as the socialist candidate for president of the United States. Benjamin Hanford, of New York city, was nominated for vice president. Neither of the candidates had any opposition for the nomination.

After condemning the policies of the democratic and republican parties the platform, as adopted, appeals to the American people for support on the ground that the socialist party is the only political organization standing for the principles by which the liberty of the individual may become a fact as the only political organization that is democratic, and that has for its purpose the conversion of all society to the principles of true democracy. Capitalism and private ownership of the means of employment, it is declared, "grounds society in an economic slavery which renders intellectual and political tyranny inevitable." The fidelity of the socialist party is pledged, in the platform, to the principles of international socialism as embodied in the united thought and action of socialists of all nations.

The question of inserting a plank in the platform favoring labor unions, which caused several heated discussions during the convention, was adopted by a vote of 107 to 53.

THE HEIR IS FOUND.

He Inherits More Than \$100,000 From His Father's Estate.

New York, May 6.—After a search covering the whole of the United States George Miller, heir to more than \$100,000 left here after he had been exiled from Brooklyn for three years, has been found at last. While agents of his father's executors were looking for him all over the west he was tossing in delirium upon a bed in the Sacramento county hospital in Sacramento, Cal. He is still in that institution slowly recovering from a long run of typhoid fever. Miller does not know that his father is dead.

The search for Miller was brought to an end Thursday when a friend in Brooklyn received a letter from the young man telling of his long illness. The letter was taken at once to the executor of the Miller estate and the young man will be brought home as soon as he is able to travel. Miller has six sisters to share with him the fortune of his father, which is estimated at nearly a million dollars.

A TRIPLE HANGING.

Henry Judge, Joe Delp and John Evans Executed at Winchester, Tenn.

Winchester, Tenn., May 6.—Henry Judge, Joe Delp and John Evans were hanged here Thursday for the murder of Simon Butcher and his wife last August. The trap was sprung at 5:43 a. m. The three men exhibited the same indifference and stolidity that marked their conduct during the trials and walked without assistance onto the scaffold. Each of them made a short speech, in which they expressed their preparedness and said their only regret was that they were leaving their wives and children. None of them made any reference to the deed for which they paid the penalty.

TORNADO IN TEXAS.

Many People Were Killed and Much Stock and Property Destroyed.

Fort Worth, Tex., May 6.—A special from Cisco, Tex., says: It is reported here that many people were killed and much property and live stock was destroyed by a tornado just south of Moran, 18 miles north of here. Wires are all down and it is impossible to get particulars at this time. Relief parties can not start on account of the impassability of the roads. At Moreland, in Shackelford county, several people are known to have been killed. A tornado is reported in Parker county near Weatherford, with lives lost.

SEVERE HAIL STORM.

So Thick That Drifts Twelve Inches Deep Were Formed.

Welsh, La., May 6.—A hail storm here Thursday afternoon lasted 30 minutes and was so thick that drifts 12 inches deep were formed. All the glass in a passenger train was broken, about 50 per cent. of the windows of residences and business houses here were broken and there was heavy damage to goods. No news has come from the country, but it is feared there has been a heavy loss to the rice farmers.

Elected President For the 11th Time.

New York, May 6.—E. A. Darling for the 11th consecutive time was elected president of the Jersey Cattle club. Henry Lippincott, of New Jersey, was elected vice president, and John N. Hutchinson, of New Jersey, was elected secretary.

TOBACCO EXHIBIT.

Space Occupied by the Various States Will Total About 20,000 Square Feet.

COMPLETEST DISPLAY EVER SEEN.

Another Interesting Feature of the Agricultural Building at World's Fair is the Corn Exhibit.

Collection of Paintings By Native Filipino Artists in the Philippine Government Exposition Attracts A Great Deal of Interest.

St. Louis, May 6.—Every day finds a magnitudinous growth in the installation of exhibits at the World's fair. Every building teems with workmen and all are working to the extent of their energies.

Secretary W. B. Stevens Thursday night made the following statement:

"Instead of having places for more salaried employees, the various departments of the exposition are now every day rapidly reducing the number heretofore employed, and very soon hundreds will have been laid off. A false notion that there are still vacancies to be filled in the service of the exposition is bringing many young folks from a distance, to be disappointed in their hope of enjoying the exposition on a free pass and a comfortable salary."

A special feature in the palace of agriculture is the extensive exhibit of tobacco. The space occupied by the different tobacco exhibits from various states will total about 20,000 square feet. Various colors of the weed, from the black perique of Louisiana to the bright lemon tint of North Carolina, are used in the general decoration scheme. The entire exhibit is said to be one of the most complete displays of American tobacco ever shown at any exposition.

Another interesting feature of the agriculture building is the corn exhibit. Obelisks, formed from ears of corn are located in various parts of this section, standing 30 feet above the floor.

The collection of paintings by native Filipino artists in the art gallery of the administration building of the Philippine government exposition is attracting more than ordinary interest. Most of the canvasses are excellent specimens of art. One of the canvasses represents the scene of the death of Gen. Lawton, and, according to soldiers who were present at the time, is a remarkably exact representation.

THE LIBERTY BELL.

It Will Be Started For the St. Louis Fair in June.

Philadelphia, May 6.—The Liberty bell will be taken to St. Louis. This was decided upon Thursday when both branches of the city council passed a resolution appointing a special committee of 24 to escort the revolutionary relic and appropriating \$15,000 to defray the expenses. The start will be made in June, but before the old bell is placed in the Pennsylvania building at the World's fair it is the present intention to have it pass through the principal cities of the states and territories into which the Louisiana purchase territory was divided.

These are Montana, North and South Dakota, Wyoming, Colorado, Nebraska, Minnesota, Iowa, Missouri, Arkansas, Kansas, Indian territory, Oklahoma and Louisiana. The bell will remain at St. Louis until the close of the exposition, and will be under a constant guard of Philadelphia policemen. President Francis, of the exposition, will be asked to name a special day to be known as "Liberty Bell day."

DR. GILES S. MITCHELL DEAD.

The Well-Known Physician and Surgeon Expired Suddenly.

Martinsville, Ind., May 6.—Dr. Giles S. Mitchell, of Cincinnati, died suddenly Thursday at the home of his mother in this city. He was 52 years old. Dr. Mitchell was professor of gynecology at the Cincinnati college of medicine and surgery, surgeon at St. Mary's and the Presbyterian hospitals and ex-president of the Cincinnati academy of medicine. He was president of the Cincinnati Obstetrical society and member of the American Medical association and represented latter as delegate at several international meetings.

Torn By a Tornado.

Carmen, Okla., May 6.—A tornado started at Helena and passed through Timberlake, extending to Alva. It cut a swath 16 miles long, one and a half miles wide, destroying crops and some buildings at Timberlake.

THE SOUTH'S REMARKABLE GROWTH.

The remarkable growth of the South and the equally remarkable development of the statistical department of the Manufacturers' Record, which enables that publication months in advance of the census reports to present a close approximation of Southern growth, is shown in some comparisons presented in its last issue. It is also shown that the Manufacturers' Record always makes a rule in its statistical estimates to understate rather than overstate real conditions, its aim in this being never to give exaggerated estimates. Discussing these facts that paper in its issue of April 28th says:

From time to time the Manufacturers' Record, in order to spur Southern industry and to encourage Southern endeavor, publishes estimates of crops or of other economic efforts in the South. Not infrequently such estimates are heralded by individuals accustomed to gain their statistical knowledge by absorption as wild exaggerations. The Manufacturers' Record has encountered obstructive criticism from the time it began more than twenty years ago to point to the future of the South. In many cases that future has become a past, and what some thought were "wild dreams" and "exaggerated estimates" have become accomplished facts or ultra-conservative statements. For example, on March 21, 1901, the Manufacturers' Record made the following forecast of what the census would show as the total value in 1900 of the agricultural, manufactured and mineral products of the South in 1900:

Agricultural products.....\$1,220,500,000
 Manufactured and mineral products.....1,543,500,000
 Total.....\$2,764,000,000
 By August 7, 1902, or seventeen months later, the available figures of the census showed the following:

Agricultural products.....\$1,271,654,273
 Manufactured and mineral products.....1,572,992,157
 Total.....\$2,844,646,440
 There was conservatism in estimates to the extent of \$80,000,000 in the total of \$2,844,000,000. Another instance of conservatism is in the cotton estimate made in the Manufacturers' Record of December 10, 1903, that "the value of the present crop, including seed, may be safely estimated at \$625,000,000." The official figures of the census, nearly five months later, placed the value of the crop, including seed, at \$660,549,230, a conservative underestimate of \$35,500,000 in a total of \$660,500,000.

Getting Back to First Principles.

In an interview published in the Cincinnati Enquirer Senator McCreary says: "As to the Chairmanship of the State Committee I have unhesitatingly declared myself for Congressman Kehoe of the Ninth district. I intend making a speech in the State convention advocating the adoption of new rules governing committee matters; that the people shall, with the precinct as the unit, appoint their committeemen and fill all vacancies, and not leave the appointment of committeemen or vacancies to be filled by district or State committees. We must get back to the first principles of Democracy—the right of the people to select their representatives in everything."

In Memory of Thomas Reese.

The death of Thomas Reese, although not unexpected, spread an unusual gloom through the large circle in which he moved and was known. There have been but few sadder deaths than this. When we think of his youth, of the place which he had filled among his youthful associates, and of the confidence he had inspired, of his sickness and sufferings, of his death, and of the hopes which died with him, we cannot but think how dark and mysterious was his removal. He was young, hopeful, promising, a general favorite. No young man enjoyed better advantages by which to succeed in life. No measures were spared to equip him for usefulness. These years of his short life stand forth as an argument in favor of a religious home life and noble parentage. Sweet and tender were the ties of home, but the dear one is gone, the grave hides him, only think of him as having reached the port where the storms of life never beat, where all is peaceful and quiet forevermore. Thomas Reese was a member of the M. E. Church, South. He was laid to rest in the Maysville Cemetery, surrounded by his schoolmates, teachers and loving friends. Services by his pastor, Rev. Geo. Froh.

The Fleming grand jury returned seventeen indictments.

KENTUCKY'S DISPLAY.

It is One of Which the State Can be Proud
 Judge Wall on the World's Fair.

Judge Wall gives a glowing report of the St. Louis Exposition, and says that the Kentucky exhibits and building compare favorably with those of any State in the Union, when the amount of the appropriation is considered. The tobacco that was exhibited at the Maysville fairs and purchased by Mr. Dan Peed of Paris looks even better at St. Louis than it did here, as it is in very handsome cases and far exceeds that of any other State. The coal, clay, stone and iron display is very artistic and will undoubtedly attract capital to this State. The Kentucky timber exhibit is wonderful, as is also the grain display. Our corn surpasses that of Missouri, Iowa and Illinois. All of the Kentucky exhibits are in much more advanced stage of preparation than our neighboring States.

The facilities for reaching the grounds are ample and speedy, and Judge Wall says the hotels and rooming houses will accommodate the visitors. He says the hotel rates for one in a room have been doubled, but for two the rate is the same as it has been for years. The prices of food are made to suit the purse of every one. Very good rooms can be rented at from \$4 to \$7 per week or from 75 cents to \$1.50 per day, and agents of the exposition and Bureaus of Information are abundant, and he thinks no one of any experience will be imposed upon. Rates for cabs and carriages are regulated by law and are the same as in Cincinnati and Louisville.

The exhibits, landscape, walks, &c. will be in complete order by June 15th.

The DeArville act is brim full of sweetest melody and richest humor. They keep an audience in a continuous roar of laughter. They play every known musical instrument, and not a few that are wholly unknown to America. They conclude their act with the Swiss bells, and as bell ringers they are phenomenal. Thus, from new to old, the entire Faust Minstrel performance runs, and the blending is really a pleasing bit of evolutionary science. At the opera house Monday, May 9th. Seats on sale at Ray's Saturday morning.

A prize worth working for is the beautiful forty-dollar ring offered by Wyandotte Tribe No. 3, I. O. R. M., to the lady receiving the most votes cast in the "Queen of the Carnival" contest during the coming Red Men's Pow-wow and Summer Carnival, week of June 13th-18th. Contestants must enter their names with Secretary W. F. Thomas between now and May 20th, and as each contestant enters her name will be announced in each of the daily papers. The price of votes will be 1 cent each. See the ring at Clooney & Perrine's and it will be an incentive for you to "hustle" for votes. The winner of the contest will be crowned "Queen of the Carnival" at the grand ball given in her honor on the night of Friday, June 17th. Contestants of any age may enter. Voting places will be announced later.

CURES WITHOUT STOMACH DOSING.

Hyomei Cures Catarrh by Simple Breathing—J. J. Wood & Son. Refund Money If It Fails to Cure.

A long stride toward solving the mystery of curing catarrh was taken with the discovery of Hyomei. In fact, the percentage of cures by this treatment proves it equal to the final tests.

The folly of taking medicine into the stomach to cure catarrh of the nose, throat and lungs, has been realized by physicians, but not until Hyomei was known, had they a practical method that would obviate stomach drugging.

A complete Hyomei outfit costs but \$1, and consists of a neat pocket inhaler that can be used anywhere without attracting attention, a medicine dropper and a bottle of Hyomei.

Breathing Hyomei through the inhaler, every particle of air that enters the nose, throat and lungs, is charged with a healing balsam that soothes and allays all irritation, kills the catarrhal germs and enriches the blood with additional ozone.

J. J. Wood & Son have so much faith in the power of Hyomei to cure catarrh, that they are selling it under their personal guarantee to refund the money if it does not give positive relief.

Fine Concert For Benefit of Y. M. C. A. The entertainment given by the Ithaca Conservatory of Music Concert Company at Central Avenue M. E. Church was one of the best affairs of the kind that has been heard for some time. While the program contained but twelve numbers, each number was encores and applauded to the echo. Miss Berry was especially good in her selections from the old masters, and Miss Watkins and Miss Hier made decided hits with songs both classical and of a higher vein. Miss Streeter might have furnished the entire program, had she been willing, with her readings ranging from the humorous to the pathetic, and her idea of expression was more than good.—The Indianapolis Morning Star, Thursday, April 14, 1904.

This company appears at First Baptist Church to-morrow night for benefit of Y. M. C. A.

ANNOUNCEMENT.

FOR CONGRESS.

We are authorized to announce Congressman JAMES N. KEHOE as a candidate for re-election November, 1904, subject to the action of the Democratic party.

AN ORDINANCE

Prohibiting Spitting on Street Car Floors or Sides or Seats and Fixing a Penalty For Violation Thereof.

Be it Ordained by the Board of Council of the City of Maysville: That it shall be unlawful for any person riding on or occupying any of the street cars within the limits of the city of Maysville to spit on the floors or sides or seats of the cars, and any person so offending shall be fined not less than one nor more than ten dollars.

Sec. 2. Be it Further Ordained by Said Board of Council, That this ordinance shall take effect from and after its passage and publication. Adopted by Council May 2, 1904.
 Attest: W. E. STALLCUP,
 Mayor City of Maysville.
 J. L. DAULTON, City Clerk.

The Bee Hive

THREE YEARS YOUNG!

That's what we are, three years young, and in this short time we have the leading business in this section of Kentucky. Some merchants advertise that you should buy their goods because they have been in business forty years or more. If you want a Mohair Skirt and they do not keep them you should buy the goods because their fathers and your father went to school together.

Saturday was the banner day of the Bee Hive's existence. We estimated FIVE THOUSAND PEOPLE VISITED OUR STORE. More than some stores have in ten years. They came here

BECAUSE we carry the best line of merchandise.

BECAUSE we mark our goods in plain figures.

BECAUSE our goods are better for the money than anywhere else.

BECAUSE we welcome comparison with any store in the world.

BECAUSE we are not forty old but three years young, and our motto is "If our stuff ain't right, why you needn't come round."

This week Mohair Skirts are selling fast—blacks and blues, and that pretty blue you like too, \$5.95 to \$10.95.

MERZ BROS.

Some persons are circulating a report that the Globe Stamps will be stopped. This report is false. We are giving out more than ever and will continue doing so. Globe Stamps have come to stay. They are backed with \$500,000 capital and 20 merchants in Maysville. ASK FOR GLOBE STAMPS. Let the knocker knock.

HAD NARROW ESCAPE.

Mr. and Mrs. George W. Blatterman in Collision With an Automobile at St. Louis.

St. Louis, May 4.—Colonel and Mrs. Geo. W. Blatterman, of Maysville, Ky., while driving to the exposition grounds this afternoon narrowly escaped death in a collision with an automobile.

Colonel Blatterman was thrown under the horse's hoofs and was seriously trampled. Mrs. Blatterman was painfully bruised by being thrown against a lamp post. She struck the pavement with frightful force, and but for heavy clothing serving as a protection her back would have been broken.

The automobile was driven by a woman. The chauffeur who accompanied her was teaching her to operate the machine. Colonel Blatterman, thinking the auto was properly managed, made no attempt to turn aside until the machine came towards him. Then it was too late and the collision occurred.

MR. WILLIAM JOLLY.

One of Germantown's Good Citizens Passed Away Last Night After a Linger- ing Illness.

Mr. William Jolly, aged fifty-five, died last night at 10 o'clock at his home in Germantown, after an illness of several years. He had been a great sufferer, but was patient through it all.

Mr. Jolly was a native of Harrison County, but had spent a large part of his life in Mason. He was one of Germantown's best citizens, held in high esteem by his friends and neighbors. His wife survives and he leaves three children. One of his sons Brady is Superintendent of Schools at Prescott, Arizona, and his other son Manley teaches school at some other point in that territory. His only daughter Miss Addie is one of the assistant teachers in the Germantown school. Deceased also leaves one brother Robert of Wedonia.

The funeral will take place Sunday at 2 p. m. at Germantown under the auspices of K. of P. lodge of that place. The religious services will be conducted by Rev. J. C. Holmes of Augusta.

Millinery Sale.

Positively closing out to quit business. A chance for bargains.

Mrs. B. B. MANCHESTER.

D. Hechinger & Co.

Just a few words about our spring stock and spring business. From all sections of the country you hear rumors of dull trade mainly attributed to the long continued phenomenal cool weather. "It is our privilege to tell a different story." The past month's (April) business shows way beyond the same month's business for many years. Now we know that so far Spring Clothing has not been needed, but our present stock of Men's, boys' and Children's wear is so irresistible in styles, qualities and prices that our people just had to buy after looking at them.

The same holds good with our Shoes. GOOD Shoes were needed in Maysville. We bought that kind—HANAN and DOUGLAS—and we are selling them.

Look at our May offerings in our next "ad."
